

Chapter Resear : NTCC Webb Chapter Film on Sam Houston and the Fall of the Texas Teacher bkee

A) The Scope of the Under taking:

The scope of the undertaking is to research the life and work of Sam Houston, the first President of the Republic of Texas, and his role in the Texas Revolution and the Texas Teacher's movement. The project will focus on the following areas:

- 1. The early life and education of Sam Houston.
- 2. His military career and role in the Texas Revolution.
- 3. His political career and role in the Texas Teacher's movement.
- 4. His legacy and impact on Texas history.

The project will be completed by the end of the semester. The results of the research will be presented in a report and a presentation.

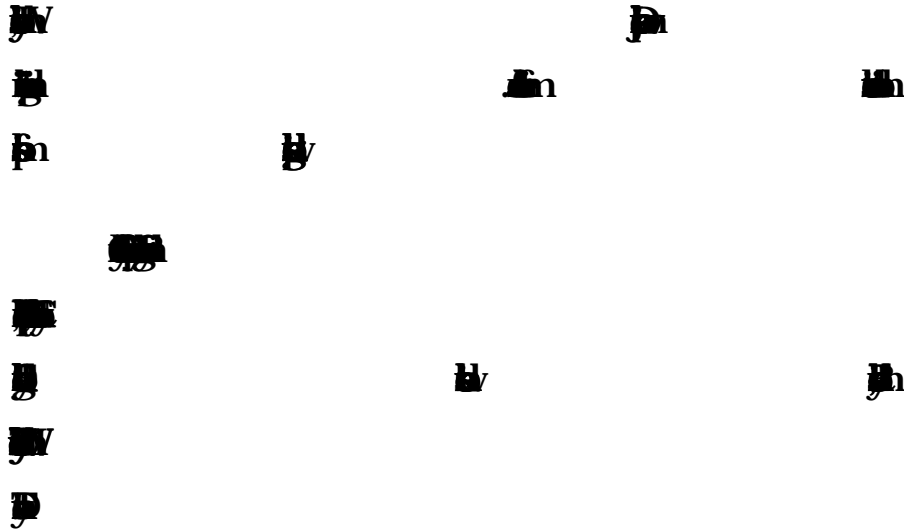

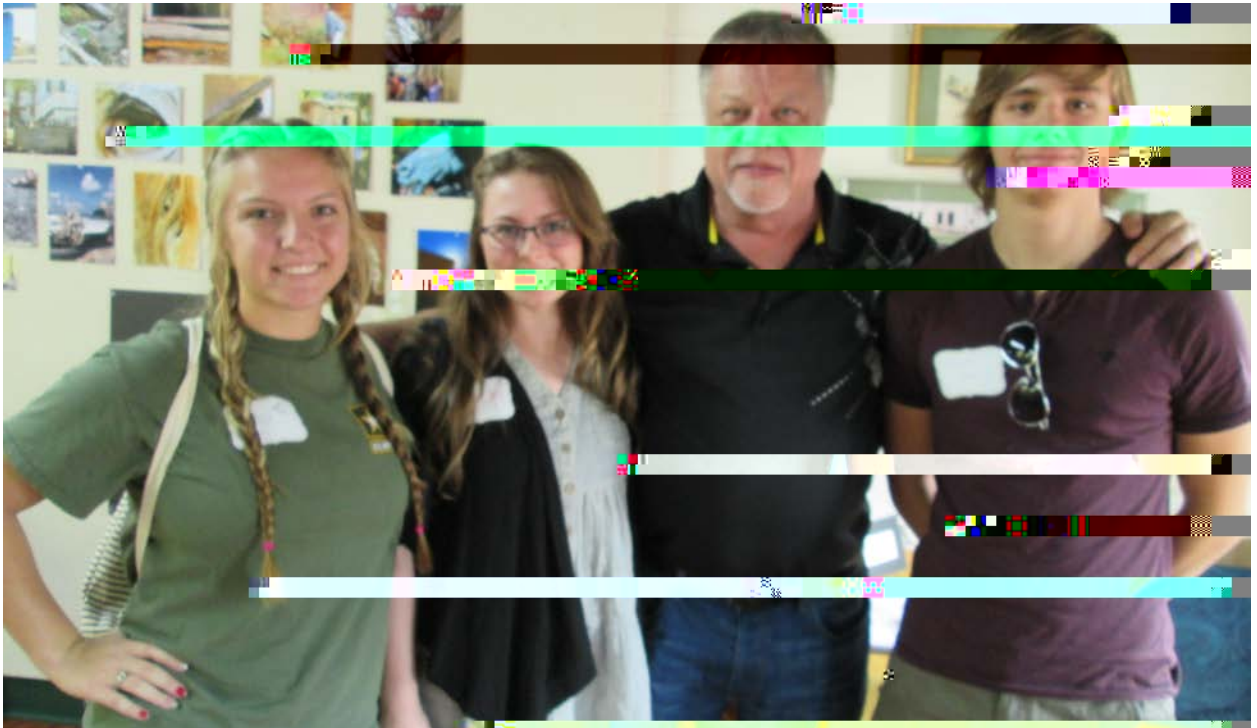

Figure 2: Below left is Rachel Jones (left) and Sam Hotin (right) and on the right is Candy Williams (left) and Dan Jones (right). Candy Williams is a senior and Sam Hotin is a junior. Rachel Jones is a senior and Dan Jones is a junior. They are all members of the NTCC Cinematographer and are proud to be part of the NTCC Cinematographer team.

E) Conclusions :

1. The first conclusion is that the study has shown that the use of the internet has increased significantly over the last few years. This is due to the fact that the internet has become a more accessible and reliable source of information.

2. The second conclusion is that the use of the internet has also led to a decrease in the use of traditional media such as newspapers and magazines. This is because the internet provides a more convenient and up-to-date source of news and information.

3. The third conclusion is that the use of the internet has led to a decrease in the use of television. This is because the internet provides a more interactive and personalized viewing experience.

4. The fourth conclusion is that the use of the internet has led to a decrease in the use of radio. This is because the internet provides a more convenient and up-to-date source of news and information.

5. The fifth conclusion is that the use of the internet has led to a decrease in the use of print books. This is because the internet provides a more convenient and up-to-date source of information.

6. The sixth conclusion is that the use of the internet has led to a decrease in the use of physical libraries. This is because the internet provides a more convenient and up-to-date source of information.

7. The seventh conclusion is that the use of the internet has led to a decrease in the use of physical newspapers and magazines. This is because the internet provides a more convenient and up-to-date source of news and information.

8. The eighth conclusion is that the use of the internet has led to a decrease in the use of physical television sets. This is because the internet provides a more interactive and personalized viewing experience.

9. The ninth conclusion is that the use of the internet has led to a decrease in the use of physical radio sets. This is because the internet provides a more convenient and up-to-date source of news and information.

10. The tenth conclusion is that the use of the internet has led to a decrease in the use of physical books. This is because the internet provides a more convenient and up-to-date source of information.

F) Significance:

1. The first significance is that the study has shown that the use of the internet has increased significantly over the last few years. This is due to the fact that the internet has become a more accessible and reliable source of information.

2. The second significance is that the use of the internet has also led to a decrease in the use of traditional media such as newspapers and magazines. This is because the internet provides a more convenient and up-to-date source of news and information.

3. The third significance is that the use of the internet has led to a decrease in the use of television. This is because the internet provides a more interactive and personalized viewing experience.

4. The fourth significance is that the use of the internet has led to a decrease in the use of radio. This is because the internet provides a more convenient and up-to-date source of news and information.

5. The fifth significance is that the use of the internet has led to a decrease in the use of print books. This is because the internet provides a more convenient and up-to-date source of information.

6. The sixth significance is that the use of the internet has led to a decrease in the use of physical libraries. This is because the internet provides a more convenient and up-to-date source of information.

7. The seventh significance is that the use of the internet has led to a decrease in the use of physical newspapers and magazines. This is because the internet provides a more convenient and up-to-date source of news and information.

8. The eighth significance is that the use of the internet has led to a decrease in the use of physical television sets. This is because the internet provides a more interactive and personalized viewing experience.

9. The ninth significance is that the use of the internet has led to a decrease in the use of physical radio sets. This is because the internet provides a more convenient and up-to-date source of news and information.

10. The tenth significance is that the use of the internet has led to a decrease in the use of physical books. This is because the internet provides a more convenient and up-to-date source of information.
